CAREER OBJECTIVE

Mobile Application Developer with **5 years** in **Flutter and native Android**, building secure and scalable **Fintech** applications across digital wallet, payment, and banking use cases. Strong in **clean architecture, dependency injection, performance optimization**, and end-to-end delivery with API/payment integration, CI/CD and compliance-focused releases.

KEY ACHIEVEMENTS

- Built secure, high-impact banking applications serving **10,000+ active users** with multi-factor authentication.
- Developed and maintained mobile apps with over **500,000 combined downloads** and strong user ratings up to **4.7☆**.
- Contributed to a logistics app with more than **50,000 active users** supporting nationwide delivery.
- Pioneered innovative IoT and AI-driven agriculture and power monitoring apps.
- Formerly active in problem-solving, achieving a **1,256 contest rating on LeetCode** with **74 solved problems** across varying difficulty levels.
- Provided **22 helpful answers on Stack Overflow**, supporting the developer community with practical solutions.
- Earned multiple coding challenge badges on HackerRank, including **Problem Solving and 30 Days of Code**, reflecting consistent commitment to skill enhancement.

WORK EXPERIENCE

Software Specialist

SSL Wireless, Dhaka, Bangladesh

(Dec 2022 – Present)

- Executed Fintech project scope analysis, **risk assessment, and requirement gathering**, delivering accurate timelines.
- Built apps with **clean architecture, dependency injection, and modular patterns** for scalable delivery.
- Integrated **REST APIs, payment gateways, and third-party SDKs** for financial service workflows.
- Implemented **authentication, authorization, JWT/OAuth, and API/data encryption** for banking use cases.
- Performed **unit/integration testing, performance profiling, and memory optimization** for stable releases.
- Maintained CI/CD, release notes and deployment checklists for **Google Play and Apple App Store**.
- Collaborated with **cross-functional Dev, QA, and client teams** and aligned delivery with regulatory compliance expectations.

Mobile Application Developer

Aqualink Bangladesh Limited, Dhaka, Bangladesh

(Jul 2021 – Nov 2022)

- Transformed Figma designs into cross-platform **mobile apps with hardware integration, animations, and API connectivity**.
- Applied **Provider state management** and integrated **REST APIs, WebSockets, MQTT, and analytics SDKs**.
- Deployed apps to Google Play Store and supported release processes for **Apple App Store** distribution.
- Built IoT-enabled apps connecting industrial automation sensors with mobile platforms.
- Collaborated in an agile team to debug, maintain, and optimize system performance and reliability.
- Gathered and refined **software requirements** from stakeholders to ensure business alignment.

Android Developer

Paperfly Private Limited, Dhaka, Bangladesh

(Mar 2021 – Jun 2021)

- Developed features for **merchant creation, order processing, invoices, returns, and customer support** in PaperFly GO.
- Enhanced user experience with **location-based warehouse & pickup locators and multilingual support**.
- Built and maintained **native Android apps (Java & XML)** for seamless integration with business workflows.

SKILLS

UI, State Management and Architecture

Dart, Kotlin, Flutter, Jetpack Compose, Bloc, Riverpod, Provider, GetX, Clean Architecture, Dependency Injection, Localization

Security, Fintech and APIs

REST API, GraphQL, Payment Gateway Integration, KYC, OAuth 2.0, JWT, Authentication, Authorization, Data Encryption, Firebase, WebSockets

Testing, Performance and Tools

Unit Testing, Integration Testing, Memory Management, Performance Optimization, Git, GitHub, Codemagic, Play Console, App Store Connect, Android Studio, VS Code, Jira, Figma, Postman

PROJECTS

SSL Wireless Projects

- **Magpie (Android 📱, iOS 📱):** Fintech digital banking and digital wallet app for BASIC Bank with 10,000+ active users, featuring biometric login, MFA, KYC, payment gateway integrations, and secure fund transfer workflows.
- **myBKB (Android 📱, iOS 📱):** Mobile banking app for Krishi Bank serving 50,000+ customers, with secure authentication, real-time balance tracking, and compliance-oriented financial service integration.
- **Desco (Android 📱, iOS 📱):** Leading digital electricity bill payment and usage tracking app with 500,000+ downloads and a loyal user base.
- **WZPDCL Customer Service (Android 📱):** Utility customer support app used by 10,000+ customers, enabling bill payments, complaint tracking, and new connection application management.
- **BDHonda+ (Android 📱, iOS 📱):** Highly-rated Honda motorcycle ownership app with 4.3★ rating and 10,000+ users, including dealer locators, test ride requests, and safety features.
- **EASY: Health and Fitness (Android 📱, iOS 📱):** Comprehensive wellness app rated 4.8★ with 1,000+ users; features health logging, doctor appointments, digital prescriptions, and diabetic care resources.
- **Ecopia (Android 📱):** Innovative blockchain-based platform for plastic waste management fostering sustainability through incentives.

Aqualink Bangladesh Limited Projects

- **Agrotrace Purchase (Android 📱):** SaaS-powered agro e-commerce platform connecting farmers, buyers, and financial services across Bangladesh.
- **Intelligent Irrigation System (Android 📱):** Smart irrigation app employing IoT sensors and AI-driven analytics for optimal water management.
- **Sensometer: Generator Monitor (Android 📱):** IoT generator monitoring system ensuring reliable power supply through real-time device management.

Paperfly Project

- **PAPERFLY GO (Android 📱):** Merchant logistics app supporting 50,000+ active users with real-time order management and nationwide delivery coverage.

Other Projects:

- **iKnow by AdSEARCH (Android 📱, iOS 📱):** Workplace abuse awareness app for icddr Bangladesh, providing interactive videos, quizzes, and feedback features.
- **ssl_cli (Web 🌐):** Popular open-source Flutter project scaffolding tool with over 512 downloads.

EDUCATION

BSc, Computer Science and Engineering

Ahsanullah University of Science and Technology

Apr 2016 – Jan 2021

Dhaka, Bangladesh
